Summary

Motivated and detail-oriented aspiring QA Engineer. Has good communication and organization skills, and is a very positive, proactive, responsible, and flexible person. Learning the fundamentals of manual testing, test design, and bug reporting. I have a basic understanding of web application testing, client-server architecture, and working with DevTools. I have English proficiency at the A2-B1 level, allowing me to work with technical documentation. I am eager to learn, collaborate in a team, and develop my skills in the QA field.
